

Instructions:

1. In the “Table_S1_Mucin_expression” folder, locate “Table_S1_Mucin_expression_level.csv”.

Download the file to your local directory. The first row is the header. This is a data file containing information about the selection of the dominant gene. Expression level and average TPM were calculated.

Output(s):

1. Locate “Table_S1_Mucin_expression_level.csv”. This is the source csv file of gene expression.
